

Mineral Make-up

PRFX HAS REALLY SET THE STANDARD
FOR MINERAL MAKE-UP!

PRFX is helping
you achieve
beautiful skin

PRFX has developed a line of mineral make-up to keep your skin healthy and beautiful. In order to take the best care of our skin, we must be aware of what we are applying to it! When applying regular make-up, the chemicals used in the production process enter your pores. These preservatives can harm sensitive skin, as well as cause breakouts due to clogging of the pores. Mineral make-up does not

require chemically developed preservatives to last! The durability of mineral make-up vs. regular make-up is longer since the minerals bond to the surface of your skin. This avoids any smudging or smearing of the make-up to have an all-day photo-finish.

MINERAL FOUNDATION

"LOVE THIS MAKEUP. I'm a self-proclaimed M.A.C addict and after trying the Emma Sand PRFX mineral powder, it's my new go-to face makeup!"

TERI-LEIGH ARMSTRONG,
HUMMINGBIRD KANATA CLIENT

PRFX mineral foundation is a completely refined mineral product! It eliminates the need for a liquid foundation and pressed powder because it does all that in one quick application. The PRFX mineral foundation is non-comedogenic (does not block pores), and eliminates classic "irritants" – like fragrances, binders, synthetic dyes, and chemical preservatives. This means it is the best option for all skin types, even the most sensitive skin, acne and rosacea-prone skin.

MINERAL BRONZER

Want to look like you have been kissed by the summer sun without damaging UVA/UVB rays? PRFX Bronzer is an easy and healthy way to give your face and body a beautiful and light tint to make you feel alive!

WHAT'S IN IT? INGREDIENT LIST:

PRFX

All-Natural blend of Earth Minerals include:

- ◆ Titanium Dioxide: UVA/UVB sun ray protection and anti-inflammatory
- ◆ Mica: Gives skin a natural glow!
- ◆ Iron Dioxide: Gives mineral foundation a NATURAL colour and tint
- ◆ Zinc: Helps to calm redness and prevent irritation

MINERAL LIP GLOSS

The natural Minerals found in the PRFX lip gloss provide a shimmer without any use of unnatural materials (i.e. plastics). This gives our lip gloss an incredible benefit of protection without irritation to the skin on a delicate area like the lips. PRFX Mineral lip gloss provides you with:

- ◆ UVA/UVB protection
- ◆ Natural moisturizers including VITAMIN E
- ◆ Natural preservatives; **Paraben FREE** (harmful preservative found in most cosmetics)
- ◆ IRON OXIDES (assist in providing natural colour)

MINERAL BLUSH

Incredibly flawless and natural colour! This soft and shimmery blush brings life to your skin, and is always super evenly spread on the skin due to its careful formulation.

PRFX Mineral Blush was formulated for all skin types, especially acneic or extremely sensitive skins and provides gentle all day wear.

WHAT'S IN IT? INGREDIENT LIST:

PRFX

MINERAL BLUSH:

- UVA/UVB protection
- TALC FREE (Corn starch is used as a natural substitute)
- ZINC (helps to calm redness and prevent irritation)
- ◆ IRON OXIDES (assist in providing natural colour)

MINERAL

ILLUMINATE

This incredible cream based illuminator gives an instant dewy and youthful appearance to your face! Use it to highlight the brow bone and cheek bones to add that finishing touch to your skin. You can even mix it with a body cream and use it to highlight your chest, shoulders and legs!

CONCEALER WAND

Applicator wand is perfect for your purse! Use as a eye shadow base, lip gloss base, or to conceal imperfections all over the face. Opaque minerals reflect the light and conceal as well as provide extra coverage.

CAMOUFLAGE

TO BRIGHTEN DARK PIGMENTS (YELLOW)

- ◆ Yellow Tint brightens dark pigments on the face
- ◆ Reflects light to help conceal
- ◆ Silicone, Vitamin E, and Aloe Vera
- ◆ Water Based Formula

FOR REDNESS (GREEN)

- ◆ Green tint covers redness on the face
- ◆ Reflects light to help conceal
- ◆ Silicone, Vitamin E, and Aloe Vera
- ◆ Water Based Formula

SAY GOOD-BYE TO RED,
HELLO TO
GREEN!

PRFX

GREEN

CONCEALER:

- ◆ This concealer was created for clients with redness in their skin. The green colour masks any redness. The green should be covered with a skin tone liquid. Be sure to only apply a small amount of green as it really does show up that colour!

MINERAL MASCARA

First mineral mascara developed specifically for sensitive eyes and contact lens wearers. It has a mineral – water based formula that is hypoallergenic, fragrance-free, and dermatologist tested. This mascara conditions fragile lashes to combat breakage and loss. The brush coats each individual lash for a more full and dramatic look!

WHAT'S IN IT? INGREDIENT LIST:

PRFX

MINERAL MASCARA:

- ◆ Kaolin: Natural clay that allows product to build lash length and provide all day wear
- ◆ Titanium Dioxide: Protects your gentle lashes from harmful UVA/UVB Sun Rays that make them dry/brittle
- ◆ Mica: A natural mineral that makes your lashes shiny!
